Note: The products listed here represent our standard offering. For information on other certification options, please contact your Boise Sales Representative.

In addition to our managed forest certifications, each of our white paper manufacturing facilities has an environmental management system which is certified to meet the ISO 14001 standard by an independent third party. Currently, more than 60% of the energy used in Boise's paper mills is from renewable biomass sources, and Boise is a member of the EPA Energy Star Program, EPA Climate Leaders and Chicago Climate Exchange.
