## Boise's Environmental Management

- Responsible Wood Procurement & Land Management
- Chain of Custody Tracking from fiber source to customer
- Environmental Management Systems.
- Paper Recovery and Recycled Paper Manufacturing

- Standard offering
- Inquire about availability & pricing

Note: Products cannot carry dual certification.

Boise has obtained Chain Of Custody certification for the Forest Stewardship Council which certifies and tracks attributes from fiber source to customer.

Boise's chain of custody and wood fiber procurement systems are certified by Sustainable Forestry Initiative which tracks both wood procurement and fiber source attributes.

Boise's chain of custody system is also certified by The Programme For the Endorsement of Forest Certification.

In addition to our managed forest certifications, each of our paper manufacturing facilities has a environmental management system which is certified to meet the ISO 14001 standard by an independent third party.
